

Autogenous Welding

- **GTAW Automatic – Autogenous welding (Orbital TIG without the use of filler metal)**
- **Automatic welding for systems that require stringent acceptance criteria in industries such as: Biopharm; Microelectronics; Food, Dairy, & Beverage; Aerospace, and Industrial**
- **Ability to meet stringent FDA and cGMP compliance for validated systems**
- **Ability to meet SEMI Standards for Microelectronic systems**
- **Turn Key Solutions**
- **Shop Fabrication & Field Installation according to proven SOPs**
- **Continuous improvement through Total Quality Management (TQM)**
- **GTAW Automatic welding process performs at a less than 1% reject rate.**
- **SNT-TC-1A Level II and/or AWS-CWI QA/QC Welding Inspectors and staffing**
